Governor's Hall

Governor's Hall is located just off of the Exhibit Hall in the bunker area of the resort. It was part of the public portion of the Cold War Bunker, built for U.S. Congress in case of an emergency. It was always open to the public, though guests had no idea they were in a secret bunker.

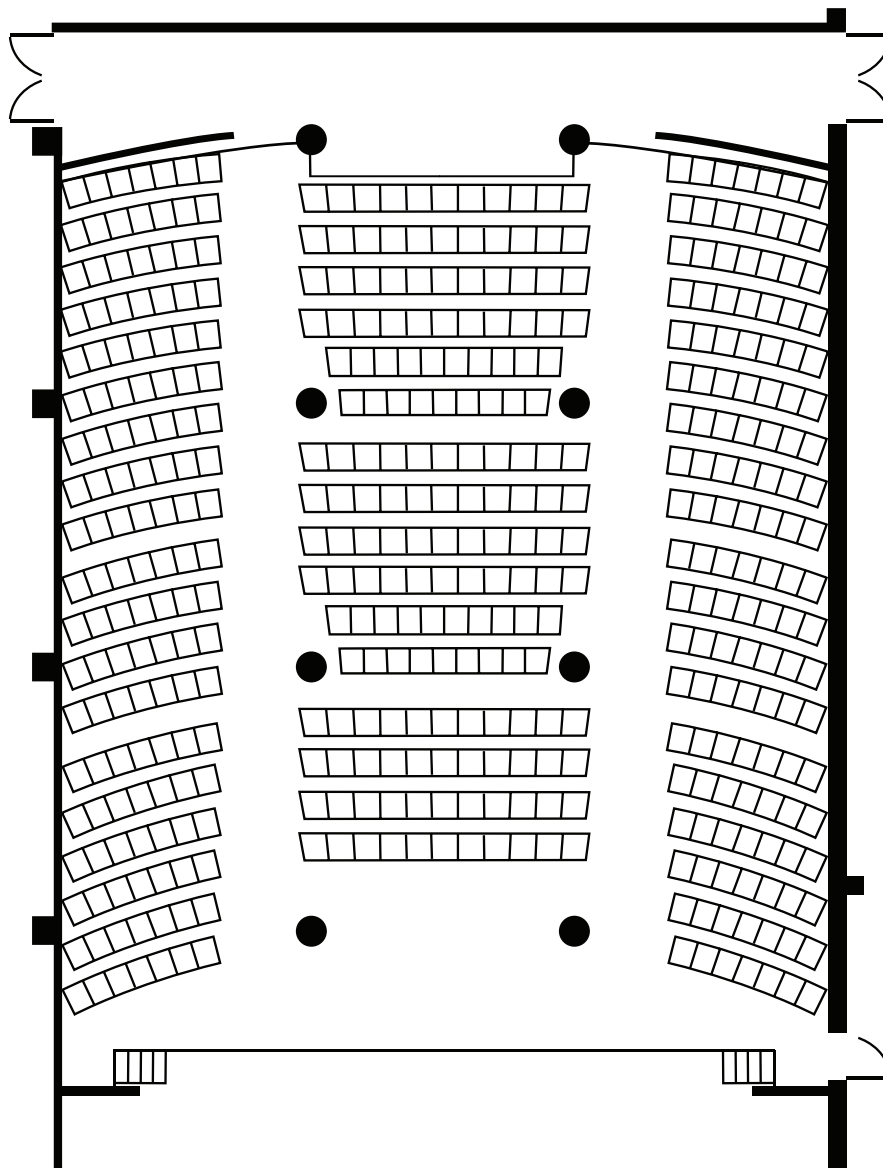

The room would have served as the chambers for the U.S. House of Representatives, had the bunker ever been activated. The room contains theatre-style seating for 326, and has recently been updated with state-of-the-art audio/visual equipment, making it the perfect spot for a presentation.
